

5.56x45 20" Safety Rod

[LOCATE DISTRIBUTOR](#)

Product Description

Large selection of Safety Rods for 9mm / 5.56x45 / 7.62x39 offer a high visibility safety solution for training and for storage. Correct rod placement marks the barrel and prevents chambering a live round.

Product Advantages

- Securely blocks the barrel and chamber, preventing the chambering of a live round
- Extended length over the flash hider and bright red colored for enhanced visibility
- Highly efficient safety tool for accident prevention during dry fire training

Compatibility
