

AMP PRO

AMP Pro - Pistol Conversion Kit

LOCATE DISTRIBUTOR

Product Description

AMP is our latest generation of handgun conversion systems. The new modular design uses three replaceable adapters. Changing and mixing between the different adapters enables the user to adjust the AMP to different handgun models. Additionally, the removable top cover and rail allows for the use of slide-mounted optics (for example, MOS systems). With these new innovations, the AMP will suit virtually any combination of users and platforms.

Product Advantages
