

AMP SL

AMP SL Pistol Conversion Kit w/ Slingshot handgun brace

LOCATE DISTRIBUTOR

Product Description

AMP is our latest generation of handgun conversion systems. This new modular design features three replaceable adapters. Changing and mixing between the different adapters enables the user to adjust the AMP to different handgun models. Additionally, the open-top design is optimized for slide-mounted optics. The AMP SL configuration features the Slingshot Handgun Brace, enabling true one-handed operation without the need for a support hand or shouldering. To use it, simply lower the brace onto your forearm and it automatically wraps securely around it, providing a broad, stable support surface.

Product Advantages

- Slingshot arm brace enables true one-handed operation using the dominant hand only
- Open upper design allowing for use of slide mounted optics & factory sights
- Easy adjustment for different handguns
- Individual adapter kits are also sold separately
- M²LOK[®] handguard supports a wide range of accessories
- Aggressive look and pricing
- Available in 3 different colors: Black, OD Green, FDE

Compatibility

- Model 10A1: GLOCK G17/19/19X/45 (GEN 3-5)
- Model 10B1: Walther PDP 4.5", SIG 365 X MACRO
