## Product Description

- RTS EFT system includes a static self-healing target set, an electronic drop joint, and a counting unit. The EFT Counting Unit is set to any number of hits between 1 and 9 and is mounted relatively low on the target board pole. Depending on the setting, the electronic drop joint releases the pole to either drop backward or to the side. Once the number of hits is reached, the target must be manually raised again.

## Product Advantages

- Fits all of the RTS static target systems
- Target will only fall after the set amount of hits was achieved
- Desired number of hits can be set from 1 to 9
- Target can be set to fall backwards or sideways

## Compatibility

- Fits all of the F.A.B RTS static target systems
