

GIS

LOCATE DISTRIBUTOR

Product Description

GIS Scope Mount for Glock models is a highly functional and cost affective upgrade for your Glock handgun; enables an upper Picatinny rail for optics and a front under side rail for foregrips or flashlights.

Product Advantages

- Accepts all 1913 MIL-STD Picatinny based sights
- Original sights remain functional
- Adds a front underside accessory rail in place of the used original
- Durable and lightweight fiberglass reinforced polymer construction
- Facilitates prompt sight alignment
- Quick and easy installation
