MALC-2

Locking Rail Cover for M-LOK® Compatible Handguards

LOCATE DISTRIBUTOR

Product Description

The M-LOK® Accessory Locking Cover (MALC) is a new heat shield locking rail cover designed for M-LOK® handguards. The MALC is designed to cover a single M-LOK® slot and provide the user with a

reliable heat shield & grip upgrade to the standard M-LOK® handguard. The unique hinged solution replaces all other two-piece or single piece solutions and is specifically designed for hardworking environments, providing a secure locked heat shield. Easy installation, with no tools needed, attach the MALC to a single M-LOK® slot, then push the hinged lock until it locks the cover in place. To remove the cover simply use a flat head screwdriver, to lift the locking part. Available in two sizes, MALC-1 & MALC-2. The MALC-1 is designed to cover a single M-LOK® slot (width of 18.5 mm / 0.72") and can be used to cover every single slot on the handguard. The MALC-2 is wider (width of 30 mm / 1.18") and can be used on the 3, 6 & 9 positions.
